

4 Stage System Handrail

Handrail & Kickboard with Securing Cam-Lock

The 4Stage System Handrail is part of a family of products from rostra Tops and Legs to Posts. Constructed from 50 SHS, a kickboard and utilising our own 4Stage Post with Cam-Lock device. With just two full turns the integrated 4Stage Cam-Lock prevents accidental removal of the Handrail. Handrails can be designed to suit your requirement, our standard features:

- 3kN/mtr Loading.
- 990mm Long x 1100mm High.
- 150mm High x3mm formed Kickboard.
- Semi Satin Black Powder Coated Finish.
- Quick & secure with inbuilt 4Stage Post with Cam-Lock.

Additional information:
