

4Stage System Sockets

Sockets for 4Stage Handrails & Posts

The 4Stage System Socket is part of a family of products from Rostra Tops and Handrails to Posts. Constructed from 60 SHS, designed to be used with our own 4Stage Post securing cam device, fix neatly to the side of our 4Stage Tops extrusion and take our 4Stage Handrails. Sockets can be designed to suit your requirement or select from our standard range below:

Description:	Part Number:	Plan View:	Isometric View:
