

SureFly

The Manual Winch you can count on

The SureFly is a compact, wall or stand-mounted, hand winch with a number of original features that separate it from its competitors.

These are:

- **A numeric counter with a reset function**
- **There is no maintenance-intensive brake; instead there is a self-sustaining gearbox that incorporates a safety nut and conforms to BGV C1 and is TUV approved**
- **The unit comes complete with an “easy-to-use” winding handle that generates maximum torque with minimum effort**
- **An operating speed of 2.5 metres per minute when driven by the recommended power drill (*Drill can be supplied*)**
- **Complete guarding including rope guards**

Specification:

Safe working load of 350 kg

Maximum flying height of 10 metres

Hand Wind or Power Drill operation

Pile Wind Drums

Maximum 5 line capacity

Other variants available on request
